Experience

Web & Tech Manager (Fellow)

Seaside Sustainability / Jan 2023-Present / Gloucester, MA (Remote)

Currently manage the day-to-day operations of the web and tech team for Seaside Sustainability by utilizing an agile framework approach, essentially serving in the roles of a Scrum Master, Front-end Web Developer, Project Manager, and a liaison between different departments in order to facilitate and support the needs of a diverse, globally remote team for a non-profit organization.

Work with a variety of software and tools such as Atlassian's Trello Kanban style board for virtual team organization, Wix Editor X for managing the company's website, Zapier for software integrations, Google Workspaces for team collaboration, Miro, Little Green Light, MailerLite, Airtable, Canva, and Figma, among others.

**Additional job history, education, and certificates available upon request or via LinkedIn.*
